- ✓ HR/Payroll Management
- ✓ Transport Management system
- ✓ Asset Management

ilma Smart Institute Management System is a comprehensive smart business solution for educational institutes that transform the traditional learning & management style into modern efficient digitized system. iSIMS is a combination of SIS (Student Information System) and LMS (Learning management system). A single, integrated platform which unites all necessary components to operate educational institute along with transportation solution. With intuitive user interface for students, parents, teachers and management it provides the best user experience for improving productivity and user engagement.

The Management is provided real time student data with various MIS reports for taking quick but informed decisions.

iSIMS is a designed with the intent of growth and expandability, with its scalable design iSIMS administrators and managers can configure & create different level of authorities with respect to departments and their functionalities.

Single manager can manage multiple campuses from one dashboard and have holistical view of the whole business.

iSIMS is a strong technology partner in expanding & achieving your mission.

---

An affordable solution with a price point for every budget. Our solution decreases your work exertion and increases productivity, transparency among different departments, students, teachers and parents. iSIMS setup's your campus on cloud base portal within no time. iSIMS offer a single window to setup multi-campus environment with-ease to deal for all management affairs.

---

iSIMS provides user-friendly interface with elegant design and intuitive user experience. Simple touch reveals vital information which has critical impact on child's safety and academics.

The various modules of iSIMS are designed to facilitate all the processes of institutional needs, equipped with progressive tools that support educational best practices. Modules like class attendance, Bus attendance, Student discipline, Exam schedule and Marks sheet, Class timetable, Fee administration and billing, School calendar, Class agenda are the key modules for managing institute.

Teachers and school management loves iSIMS live reporting feature which allows them to see in real time stats of combine or individual student(s) attendance, exam performance, detention record, fee payments status, and special remarks. These reports can be exported in PDF, Excel format for further actions.

## Mobile app:

Mobiles (smart devices) has changed the way people were in touch with each other. The ease of accessing information in the palm anywhere at anytime is the key to the success of information era.

iSIMS parent app is build for IOS and Android mobile platforms so it is easy for parents to stay informed about the school events and student progress anywhere anytime. Parents with one touch can see their child's school attendance record in graphical and list view along with bundle of other features.

- Fee schedule
- Class timetable
- School calendar
- School noticeboard
- Class agenda book
- Student Attendance
- School Bus attendance and status (live position)
- Exams Schedule and Marks sheet
- Feedback form and one touch dialling to school
- School information and location details

## Parents worries:

Is my child on the bus? Has my child safely reached the school? Is my child in the class?

## School Management:

Where are the buses at this point of time? how many students are on board at this point of time? how many students not picked up today? Have we alerted the parents of children not picked-up today? Have we alerted the parents of children absent from class today?

## Automatic Alerts:

iSIMS has state of the art notifications system integrated within the backend and mobile applications.

As soon the school bus leaves the designated bus stop without picking up the child the parents are alerted via the mobile app as well by SMS to their mobile phone.

### ***"Your child {NAME} is not picked up by the school bus today"***

And in the class room when the school teacher marks the attendance immediate alerts are sent to the parents informing them the status.

### ***"Your child {NAME} is absent from school today"***

An affordable solution with a price point for every budget. (An affordable & adaptive price solution for all educational institutes) Our solution decreases your work exertion and increases transparency among different departments, students, teachers and parents. iSIMS setups your campus on cloud base solution within no time. iSIMS offer a single window to setup multi-campus environment with-ease to deal for all management affairs.

## Improve Parents Engagement

Research has shown that parent involvement and engagement is associated with children's academic performance and social competence. iSIMS provide multiple ways for enhancing parents engagement by connecting them online with the progress of the child. iSIMS provides parents login portal over the web and mobile app so parents stay informed about the child's progress and whereabouts.

## Administrator

- Online campus management
- Staff management
- Fee payments
- Payroll system
- Manage students record
- Manage timetable
- Attendance records
- Manage curriculum
- SMS alerts & notifications
- Manage infraction & achievements
- School transportation and routes status
- Manage food items

## Teacher

- Mark attendance
- View profile of students
- View own class time-table
- View class syllabus
- View student Leave application
- View book list
- Manage daily agenda
- Mark student conducts
- Mark Student achievements
- Manage exam / semester date sheet

## Student

- View own results with grades
- View class time-tablet
- View class syllabus
- View book list
- View noticeboard and school events in calendar
- View daily agenda (assignment)
- View conduct & achievement

## Parent

- Manage own profile
- View attendances

Step towards a bright future.

## Cloud Computing Services

iSIMS is a cloud-based web solution, which gives the advantage of having the computational power of servers and network on latest technology, accessible from virtually anywhere. These systems are secure interconnected and have the latest security implemented with regular backups.

The management can access the system dashboard from anywhere and see the reports anytime. Single admin can control multiple campuses from a centralized control panel.

## Why consider a cloud-based solution?

There are many benefits, including:

- No Server Hardware required in any location (Savings of hardware, maintenance and power costs)
- No Software operating System & database license required in any location (Cost savings)
- No UPS/Power hassles needed in any location
- World class security from connections and data safety
- Regularly backed up for emergency retrievals
- Easy connectivity solutions for all platforms (Mobile, Tablets, Desktops)
- Full Scalable to increase performance and add modules or new campuses
- Fully Scalable to increase performance and add modules or new campuses.
- No IT Disaster Recovery Site Required.
- Maximum uptime and available 24/7.
- Simple design makes it understandable and operable with minor ICT knowledge.

## Dashboard Types

Different types of dashboards is available for different login credentials.

- Admin
- Campus manager
- Account/Fee manager
- Attendant manager
- Cafe manager
- Parent
- Teacher
- Student

## Modules

1. Student Information System (SIS)
2. Learning Management system (LMS)
3. Smart Attendance System
4. Fees Management
5. \*Transport Management system
6. \*HR/Payroll Management
7. \*Canteen Management
8. \*Library Management
9. \*Asset Management

## Fees Management

iSIMS offers holistic module of fees management which saves time with easy-to-use for generating multiple voucher slips, monthly/student fees, paid/non-paid fees status reports, fine slips with optional forms and much more.

## User Friendly

Fees management system is User-Friendly. A user with no knowledge of accounts can easily create billing vouchers with their details, make fee structures, enter fees due and receive payments. No technical training is required for your staff. All the fees transactions are automatically posted into users/parent/student accounts and prints and they also print.

## Advantages of Fees Management

- Fast data entry
- Flexible Fee structures
- Fast vouchers printing
- Manage all types of fee heads
- Create and manage multiple types of fee schedules
- One screen for all data entry
- User based strict security and permissions

## Fee Invoices

This feature provides a lot of meaningful reports. Following is a list of some of the reports:

- Monthly fee invoices
- Student wise fee invoices
- Class wise fee invoices

- Fast receipt printing
- Paid/non-paid status reports
- Generate multiple customized reports
- Generate auto invoice/reports
- Print invoices/vouchers in PDF, EXCEL format

## Multiple System Reports:

iSIMS provides multiple reports options for educational institute management system. Where management can generate reports related to institute activities like:

- Grades reports
- Student conducts report
- Student/class achievements report
- Student(s) attendance reports
- Monthly fee invoices
- Student performance report
- Class wise fee invoices
- Student wise fee invoices
- Miscellaneous invoices
- Paid/non-paid status reports
- Export invoices/vouchers in PDF, EXCEL format
- Various customised reports based on selectable criteria

## Smart Attendance System

This feature will add more value in the institute management. School can generate student ID cards which supports multiple sensors like QR/NFC/RFID. School scan students ID cards then attendance alert will be sent to all parents once the student is in the class. If student is absent the alert will also be sent to parents to improve the student's attendance in the class.

Collecting data of students attendance is the key for identifying students with poor attendance so prompt actions are taken accordingly. This module helps the school management to timely involve parents for student attendance improvement.

### Features

- Accurate student attendance
- Automatic attendance collection
- Daily absentee report
- Automatic SMS alert to Parent of absentee
- Graphical view of attendance for trend analysis
- Single attendance /subject wise attendance
- Generate & print student ID cards
- ID cards scanned through modern techniques

## Smart Bus Attendance System

This solution gives confidence to parents by providing real time attendance status. It also sends automatic alert (SMS) to the assigned mobile number in case of student absence.

### Features

- Timely attendance status to school management and parents
- Attendance mark via student ID card
- Students ID cards scanned through modern techniques
- Automatic bus & class attendance collection & reports
- Immediate student status update on web portal & parent mobile application
- If the student misses the school bus, immediate SMS alert is sent to the parents
- Daily, monthly, yearly/customized attendance report
- All timings, (school bus pickup, drop off) updated on portal and mobile app
- Cloud based attendance data collection & reporting

### Benefits

- Enhanced student safety
- Better student attendance management
- Better accounting of students whereabouts
- Instant messaging for absentees
- Less administration work, increase productivity
- Stop by stop bus tracking
- Optimize bus routes
- Satisfied parents with updated status of Bus & child's bus attendance record
- Fleet status (Map view of all vehicles for admin)

## iSIMS Apps

As the smart devices are very common and extensively used by everyone, therefore iSIMS has developed parent/teacher/student mobile/tablet apps for better engagement among school/child/parents from anywhere at anytime.
